Our Mission

The Industrial Safety Training Council is an organization dedicated to providing the highest quality services for our customers in the most cost-effective manner.

Serve our customers and our communities by providing excellence in training and other services in order to promote a safe and secure work environment.

Our Vision

Be the preferred source for the training needs and services of our customers.

Set the standards for future training and services with new applications and methods, being the benchmark by which excellence is measured.

Maintain our commitment to the petrochemical industry while broadening our services and markets.

Our Values

Total commitment to Quality, Teamwork, and Customer Service.

Be a good citizen, helping ensure the quality of life in the communities we serve.

Provide a quality work environment for our employees, helping our people not only to become better employees, but also helping our employees become better people.

Solutions for Today's Global Workforce

HURRICANE HARVEY UPDATE

Due to the catastrophic flooding from Hurricane Harvey, the BEST Complex is permanently closed.

The following training is now conducted at ISTC Training Centers:

- **Fireguard**
- **MX-6 Air Monitor**
- **CPR - First Aid - AED**
- **HAZWOPER Series**
- **ExxonMobil MX6**
- **ExxonMobil Bottle Watch**

Training courses no longer offered include Live Fire Training, Rescue Courses, NFPA 1521 Incident Safety Officer, and Incident Command Systems.

ISTC appreciates the opportunity to provide quality training to our Southeast Texas community.

MX6 iBrid Multigas Monitor Training

The MX6 iBrid Multigas Monitor (09MX06) course, previously offered at BEST Complex in a classroom, is now available in CBT format at ISTC.

The course is approximately 30 minutes long.

Fireguard Training

For those requiring Fireguard training, we have modified our current Fireguard program from the Live Fire to Simulation using the BULLEX Fire Extinguisher Training Simulator. This modified version has been approved by the local facilities that require Fireguard training.

Scheduling Notes:

When scheduling in Atlas, choose the ISTC Nederland location and search for the course code 09FGSIM.

The Firewatch CBT course is also required to complete the 09FGSIM.

The Firewatch course code is A09FWA and can also be scheduled at the ISTC Nederland location.

The cost of the 09FGSIM course is \$25.00 for subscribers and \$32.50 for non-subscribers.

The length of the course is 1 hour.

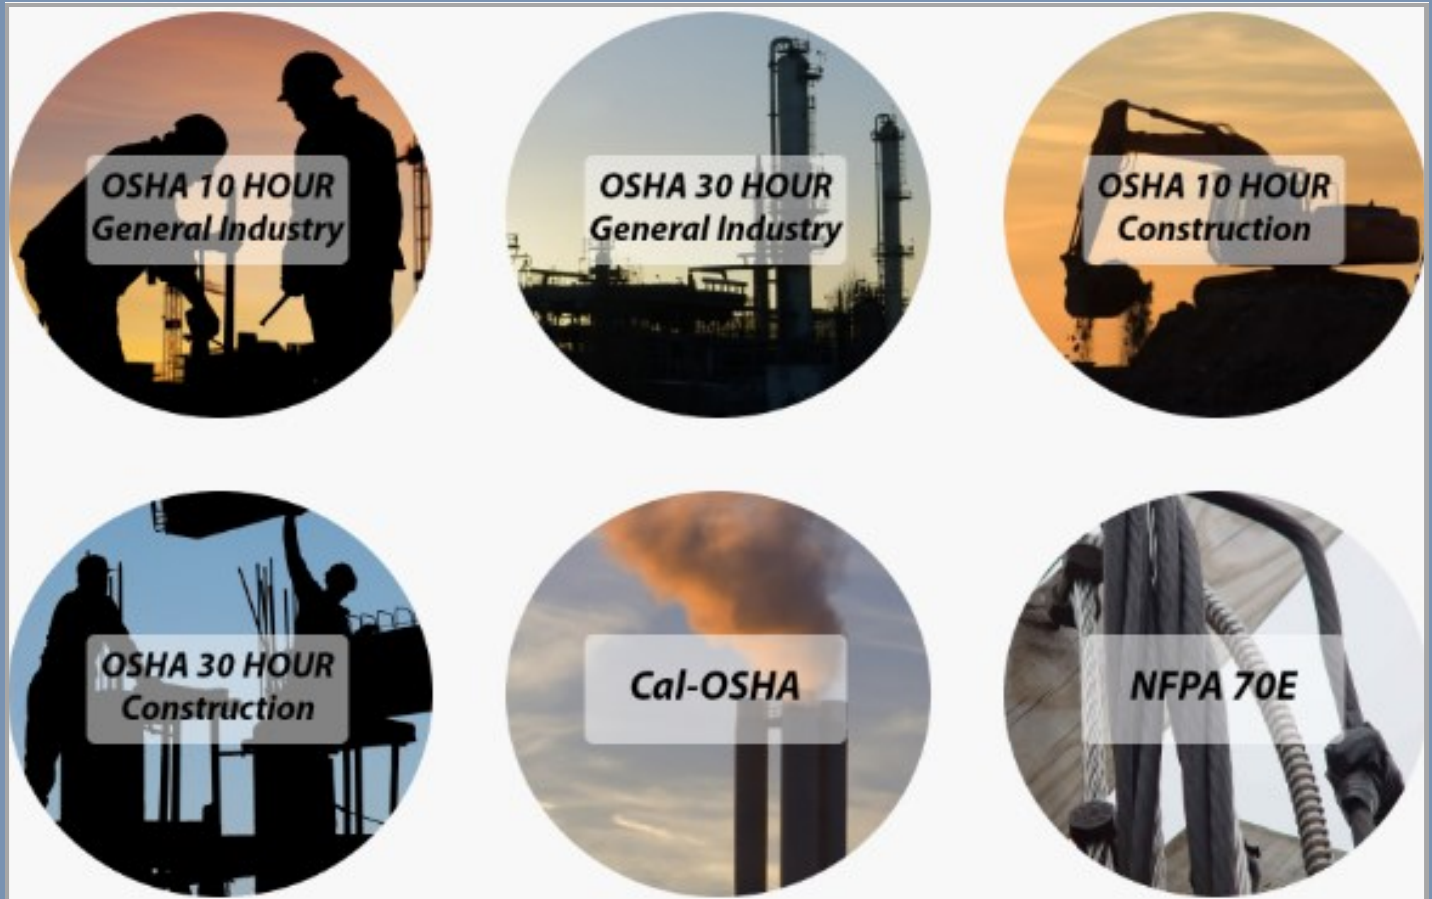

360training.com®

ISTC now offers OSHA Online Training through our new partnership with 360training.com. This is in addition to our instructed led training.
